## PROFESSIONAL EXPERIENCE

---

|                                                        |                                                         |
|--------------------------------------------------------|---------------------------------------------------------|
| <b>AXIA Energia</b><br><i>Market Strategy Director</i> | <b>São Paulo, SP</b><br><i>September 2025 – Present</i> |
|--------------------------------------------------------|---------------------------------------------------------|

Responsible for leading AXIA Energia’s integrated commercialization and market development agenda, encompassing Market Analytics, Structured Energy and Derivatives Products, Environmental Assets, New Ventures, Strategic Partnerships, and Commercial Marketing. Drives the company’s revenue maximization strategy by transforming structural market shifts, including the energy transition, increasing volatility, digitalization, and evolving customer demands, into scalable and profitable business opportunities. Leads the development of innovative solutions integrating physical energy, derivatives, flexibility, and environmental attributes, while advancing AXIA Energia’s positioning in Brazil and internationally through strategic partnerships, market innovation, and new business models. Recipient of the “Vicente Falconi Award 2025” for outstanding performance and business results.

|                                                                 |                                                       |
|-----------------------------------------------------------------|-------------------------------------------------------|
| <b>AXIA Energia</b><br><i>Market Strategy Executive Manager</i> | <b>São Paulo, SP</b><br><i>Jan 2024 – August 2025</i> |
|-----------------------------------------------------------------|-------------------------------------------------------|

Led AXIA Energia’s market strategy and commercial planning initiatives. Played a central role in embedding data-driven decision-making into the company’s commercial and portfolio management processes, while designing innovative commercial models that expanded competitiveness and strengthened market positioning.

|                                                                                 |                                                    |
|---------------------------------------------------------------------------------|----------------------------------------------------|
| <b>Oliver Wyman</b><br><i>Engagement Manager (Energy and Natural Resources)</i> | <b>São Paulo, SP</b><br><i>Oct 2022 – Jan 2024</i> |
|---------------------------------------------------------------------------------|----------------------------------------------------|

Contributed to the establishment and expansion of Oliver Wyman’s Energy and Natural Resources practice in Brazil, leveraging the firm’s global expertise to support strategic projects in the Brazilian energy sector. Led consulting engagements focused on market dynamics, commercial strategy, and sector positioning, including advisory work for multinational energy companies seeking to strengthen their competitive positioning and understand liquidity dynamics in the Brazilian power market.

**Thymos Energia***Pricing and Market Research Manager***São Paulo, SP***Jun 2020 – Oct 2022*

Led the Pricing and Market Research area, specializing in PLD projections, market intelligence, and strategic studies for the Brazilian electricity sector. Supported major economic groups in strategic planning and risk management initiatives, contributed to the CCEE technical security note market report, and advised both trading companies and international investors on middle office structures, risk policies, and market entry strategies in Brazil.

**Brookfield Energia Renovável***Portfolio Manager***Rio de Janeiro, RJ***Sep 2018 – Feb 2020*

Led the restructuring of Brookfield's portfolio management area, overseeing generation portfolio optimization and energy hedging strategies across the company's assets. Implemented initiatives that significantly improved operational efficiency and generated market-related returns exceeding R\$60 million annually.

**Enel Brasil***Portfolio Management Sr. Specialist***Niterói, RJ***Apr 2018 – Aug 2018*

Supported the management and optimization of Enel's diversified generation portfolio, including hydro, wind, solar, and thermal assets. Managed short- and long-term contracts in the Brazilian Free Contracting Environment (ACL), contributing to portfolio balancing and hedging strategies.

**Neoenergia***Generation Regulatory Affairs Specialist***Rio de Janeiro, RJ***May 2016 – Apr 2018*

Worked on regulatory affairs and strategic regulatory analysis for key generation assets within the Neoenergia Group, including hydroelectric and thermal projects. Acted in coordination with ANEEL and industry associations such as ABRAGET and APINE to support the company's regulatory positioning and sector representation.

**CPFL Energia***Energy Planner***Campinas, SP***Oct 2014 – May 2016*

Responsible for energy market forecasting and strategic planning activities for the group's distribution companies, preparing analyses and executive presentations to support senior management decision-making processes.

**Engenho Pesquisa e Consultoria***Researcher***Rio de Janeiro, RJ***Jul 2014 – Sep 2014*

Conducted research and monitoring activities focused on the Brazilian electricity sector, with emphasis on energy consumption forecasting for distribution companies.

**Siglasul Consultoria***Distribution Regulatory Affairs Consultant***Rio de Janeiro, RJ***May 2012 – Jul 2014*

Worked on tariff review and adjustment projects for companies in the electricity and sanitation sectors, including AES Sul, Afluente T, and Sanepar. Activities involved regulatory and financial modeling, market analysis, tariff structures, investments, losses, WACC calculations, and scenario evaluation.

**Núcleo de Pesquisa em Energia e Infraestrutura da PUC**  
*Research Assistant*

**Rio de Janeiro, RJ**  
*Jan 2011 – Apr 2012*

Conducted research and consulting activities focused on regulation, finance, and business strategy for the Brazilian electricity sector, supporting studies to infrastructure and energy markets.

**Light ESCO**  
*Energy Trading Intern*

**Rio de Janeiro, RJ**  
*Mar 2009 – Mar 2010*

Supported energy trading and portfolio management activities using optimization models such as NEWAVE and DECOMP to simulate spot price (PLD) scenarios and manage energy contract portfolios.

## PROFESSIONAL AFFILIATIONS

---

**CIGRE – Conseil International des Grands Réseaux Électriques**  
*Member, International Working Group on Retail Electricity Market Competition*

**IEEE – Institute of Electrical and Electronics Engineers**  
*Member, Power & Energy Society Long Range Planning Subcommittee*

## HONORS AND AWARDS
